CITY OF DES MOINES

CRITICAL AREAS MAP SERIES
This map series is intended for general planning purposes related to the Greater Des Moines Comprehensive Plan. The Growth Management Act (GMA) requires that local jurisdictions designate and protect critical areas (as described in RCW 36.70A.505, 36.70A.172(1) and Chapter 365-190 and 365-195 WAC). GMA also requires jurisdictions to include the best available science when designating critical areas. These maps include the best available science to locate, illustrate and categorize critical areas. However due to scale, the maps are not precise delineations of every critical area and are not a substitute for site-specific analysis. These maps are a composition of various sources of information in both paper and electronic format. They were created from available public records and existing map sources. Where available, scientific delineations and field surveys were digitized at the original scale and merged into the GIS database.

Please see Wetland Update Log.xls for updates.
