Suggested Motion:

Motion: "I move to approve the Proclamation recognizing April 13-17 as Black Wellness Week."

Background

In February of 2024, Gov. Jay Inslee issued a proclamation announcing the inaugural Black Wellness Week, which will be observed April 13-17, 2026, will be the third annual observation of the week.

The Elevate Black Wellness initiative establishes a framework for addressing health disparities faced by the Black community. It integrates grassroots advocacy with governmental support and emphasizes actionable steps to enhance health outcomes and build a sustainable model for future wellness initiatives.

The proclamation aims to foster community empowerment by bringing awareness to health disparities as evidenced during the COVID-19 pandemic and aligning with broader universal health objectives.

PROCLAMATION

WHEREAS, the tradition of Booker T. Washington’s Negro Health Week has historically spotlighted health disparities in Black communities, fostering advocacy and education; and

WHEREAS, holistic well-being, encompassing physical, mental, emotional, and social health, is a priority for all communities; and

WHEREAS, addressing health disparities in Washington State, especially within Black communities, calls for initiatives that are both inclusive and community-driven; and

WHEREAS, a community-driven approach, focusing on leveraging existing resources and capacities, is essential for the effective implementation of Black Wellness Week.

NOW THEREFORE, The Des Moines Council hereby proclaims April 13 – 17, 2026 as **Black Wellness Week** and urges all residents to join them in this special observance.

Purpose and Recommendation

The purpose of this agenda item is to provide the City Council with an information update regarding the 2025 and 2026 implementation of the Surface Water Utility's National Pollutant Discharge Elimination System (NPDES) permit.

Background

The National Pollutant Discharge Elimination System (NPDES) is a permit program first introduced as part of the Federal Clean Water Act in 1972. Nationally, the NPDES program is administered by the Environmental Protection Agency. In some states, including Washington, the authority to administer the program has been delegated to the State. In Washington, this authority belongs to the Washington State Department of Ecology (Ecology).

Public owners of stormwater drainage systems, like the City of Des Moines', are considered dischargers. Phase II of the NPDES program unfolded in 2007 and required smaller communities to obtain a permit and develop stormwater management plans. Des Moines recently began implementing the 2024-2029 Western Washington Phase II permit, which outlines requirements to prevent, reduce, and eliminate pollutants from entering the City's surface water system.

Each year, staff provides a Council Committee update on the City's NPDES permit and the efforts completed over the previous year (2025) and planned actions for the current year (2026).

Discussion

The 2019-2024 Western Washington Phase II permit has many requirements aimed at preventing, reducing, and eliminating pollutants. These requirements are broken down into nine main categories with a summary of actions taken in 2025.

1. Stormwater Planning

The program is required to include a Stormwater Planning program to inform and assist in the development of policies and strategies as water quality management tools to protect receiving waters. The following list provides examples of ways this requirement was met in 2025.

- Low Impact Development – ongoing requirement to make LID the preferred and commonly used approach
- Tree Canopy Program – Program planning and development began in 2025
- Watershed Planning Program
 - The Stormwater Management Action Plan requirement was completed in 2023. Lower Massey and Barnes Creek was selected as a high priority basin and various short/long-term goals were added to the plan. Implementation of this plan continued through 2025.

2. Public Education & Outreach

The program is required to include an education and outreach program designed to reduce or eliminate behaviors and practices that cause or contribute to adverse stormwater impacts and encourage the public to participate in stewardship activities. The following list provides examples of ways this requirement was met in 2025.

- General Awareness Programs
 - City Currents/Facebook Articles
 - BEA Environmental Business Outreach (23 businesses served; 15 spill kits provided)
- Behavior Change Program
 - Highline Stormfest (1200 students/ 6/10/25 – 6/12/25)
- Stewardship Programs
 - Storm Drain Marker Volunteers (550 storm drains marked)
 - Carwash Kits (5 checked out)
 - Adopt-a-Drain Program launched in 2025 (58 total storm drains adopted)

3. Public Involvement & Participation

The program is required to provide ongoing opportunities for public involvement and participation in the development of the program management plan. The following list provides examples of ways this requirement was met in 2025.

- Stormwater Management Program Updated Annually
- City Website Public Comment Invitation

4. Utility Mapping & Documentation

The program is required to provide an ongoing program for mapping and documenting the municipal stormwater system. The following list provides examples of ways this requirement was met in 2025.

- Ongoing mapping of new developments
- Map updates from PW Crew field investigations
- Tree Canopy Mapping Completed in 2025

5. Illicit Discharge, Detection, and Elimination

The program is required to include an ongoing program designed to prevent, detect, characterize, trace and eliminate illicit connections and illicit discharges into the municipal stormwater system. The following list provides examples of ways this requirement was met in 2025.

- Spill response tracking & investigation (37 spills reported)
- Field screening program (41% field screened)
- Continued training of staff

6. Controlling Runoff from Construction Sites

The program is required to implement and enforce a program to reduce pollutants in stormwater runoff from new development, redevelopment and construction site activities. The following list provides examples of ways this requirement was met in 2025.

- Plan review process (97 projects reviewed)
- Inspection process (49 construction sites inspected)
- Enforcement actions (70 enforcement actions)

7. Operations & Maintenance

The permit requires to implement an operations and maintenance (O&M) program that includes a training component and has the ultimate goal of preventing or reducing pollutant runoff from municipal operations. The following list provides examples of ways this requirement was met in 2025.

- Stormwater facility inspections/maintenance
 - 243 total facilities
 - 243 inspected
 - 44 maintained
- Catch basin inspection/maintenance
 - 5,287 total CBs
 - 2,155 inspected
 - 275 maintained

8. Source Control for Existing Development

The permit requires implementing a program to prevent and reduce pollutants in runoff from areas of existing development that discharge to the stormwater system. The following list provides examples of ways this requirement was met in 2025.

- Completed by internal staff, previously completed through consultant support
- Total number of businesses inspected (28)
- Businesses requires corrective actions (12)

9. Stormwater Management for Existing Development

The permit requires implementing a Program to control or reduce stormwater discharges to waters of the State from areas of existing development though the focus on strategic stormwater investments over longer planning timeframes. The following list provides examples of ways this requirement was met in 2025.

- Continued to plan, fund, design, and construct projects that qualify for credits towards meeting this program requirement.
- Purchased the 16.1-acre Wooton Park parcel for credit towards this program.

2026 Planned Actions:

As we implement the NPDES permit requirements into the year 2026 there are a variety of new or changing actions that will occur. Where the City is already implementing components required by the permit, those actions or activities will continue at the existing level of implementation. The following list provides a summary of actions that will be new in 2026.

- OpenGov - Currently staff use the program CityWorks for asset management, in 2026 will be a transition to a new asset management software called OpenGOV. This change in software will create more efficient workflows, allow for real-time progress reports, and improve communication between staff.
- Tree Canopy Preservation Program – Staff will continue to build out this program for the potential adoption and implementation beginning in 2027.
- Watershed Planning – Staff will begin discussions with a consultant to initiate the process for meeting the March 31, 2027, requirement to submit a watershed plan for at least one new high-priority catchment area.
- Stormfest - Continued involvement with the Highline StormFest event for 6th graders in the Highline School District taking place at the Des Moines Beach Park June 2nd – 4th.
- Stormwater Manual – The updated King County stormwater design manual will be automatically adopted in July of 2026 by City Code.
- Begin research on PCB best practices for City owned building cleaning, maintenance, renovation and demolition.

FOR AGENDA OF:

April 9, 2026

DEPT OF ORIGIN:

Administration

DATE SUBMITTED:

March 24, 2026

CLEARANCES:

Purpose and Recommendation

The purpose of this agenda item is to request City Council direction on the funding criteria to be used for the upcoming Human Services Grant Application Process for the 2027–2028 funding cycle.

Background

The City of Des Moines provides funding to nonprofit agencies that deliver essential human services to residents. As part of the biennial Human Services Grant Program, the Citizens Advisory Board Human Services Committee reviews applications and provides funding recommendations to the City Council based on established funding priorities.

Historically, the City has utilized the following funding criteria to guide recommendations:

- Access to safe, stable, and affordable housing and adequate food.
- Safety from violence within families, neighborhoods, and the broader community.
- Physical and mental health and well-being.
- Education and job skills that support access to living-wage employment.
- Early childhood education and youth success.

For the 2025 and 2026 budgets, \$150,000 was allocated annually to this program. In 2024, \$250,000 was allocated. Additionally, groups that are awarded funding must submit quarterly performance reports that are reviewed by staff to ensure compliance with funding agreements.

While these priorities have been used in prior funding cycles, staff has not identified formal Council action establishing or reaffirming them. As the City prepares to launch the 2027–2028 funding cycle, this presents an opportunity for Council to review and confirm whether these priorities continue to reflect current community needs or if modifications are desired. Establishing clear and current funding criteria will ensure that the Citizens Advisory Board Human Services Committee can effectively evaluate applications and align funding recommendations with Council’s policy direction.

Discussion

Council may wish to:

- Affirm the existing funding criteria as currently written.
- Modify or refine the existing criteria.
- Establish new or additional priority areas.

As part of this discussion, Council may also consider the following factors:

- Geographic impact: Whether to establish minimum expectations for demonstrated benefit to the Des Moines community.
- Distribution approach: Whether to continue with a broad distribution model, in which funding is spread across a larger number of organizations with smaller awards, or shift toward a more targeted investment model, in which funding is concentrated on a smaller number of organizations aligned with key priorities, allowing for larger individual awards.
- Desired outcomes: The extent to which Council wishes to emphasize measurable outcomes and performance in funding decisions.

At a policy level, Council direction will help clarify whether the City’s funding approach is intended to maximize the number of organizations supported or to maximize impact within defined priority areas.

Members of the Human Services Committee will be in attendance at the meeting and make a brief presentation in addition to one by staff. Staff and the Committee will incorporate Council direction into the upcoming Human Services Grant Program evaluation process.

Alternatives

Provide no changes to the existing criteria (default to current framework).

Financial Impact

There is no direct financial impact associated with this discussion. Funding allocations for the 2027–2028 cycle will be determined at a later date.

SUBJECT: Economic Development Update for 2026 First Quarter

ATTACHMENTS:

Update PowerPoint

FOR AGENDA OF:

April 9, 2026

DEPT OF ORIGIN:

Administration

DATE SUBMITTED:

March 23, 2026

CLEARANCES:

Purpose and Recommendation

The purpose of this presentation is to provide an update on economic development activities conducted by Eernisse Consulting during the first quarter of 2026.

Background

Due to organizational changes and ongoing budget constraints, the City does not currently have a dedicated staff position focused on economic development. While staff in other functional areas have supported business needs and responded to development inquiries as part of their broader responsibilities, they do not have the capacity or specialized expertise to fully advance the City's economic development goals.

In 2025, the City entered into two contracts with Eernisse Consulting to provide: (1) support for administration of the Washington State Department of Commerce Ferry Study, and (2) support for economic development efforts associated with the Port of Seattle Economic Development Grant. The ferry-related work is fully grant funded, and the broader economic development services are funded at 50% through grant resources.

This approach—utilizing a consultant to serve in a fractional, staff-like capacity supported by grant funding—provides a cost-effective way to access senior-level economic development expertise while maintaining fiscal flexibility.

Discussion

Dan Eernisse of Eernisse Consulting will provide an update on the three areas of work currently under contract through the end of 2026, including:

1. Strategic economic development support for the City of Des Moines.
2. Administration of the Port of Seattle Downtown Business Development Grant, active through December 2026.
3. Administration of the Washington State Department of Commerce Ferry Service Grant, active through June 2026.

Background

City Council review and approval of voucher reports is a key internal control that promotes transparency, accountability, and public trust in the City’s financial operations. By examining vouchers after expenditures have occurred, the Council provides independent oversight to confirm that payments were properly authorized, supported by appropriate documentation, and made in accordance with the adopted budget, City policies, and applicable laws. This review helps ensure public funds are used for their intended purposes, strengthens fiscal discipline, and reinforces the separation of duties between staff who process payments and the elected officials responsible for safeguarding taxpayer resources.

Discussion

The vouchers below have been reviewed and certified by individual departments and the City of Des Moines Auditing Officer.

SUBJECT: Sexual Assault Awareness and Prevention Month Proclamation

ATTACHMENTS:

1. Sexual Assault Awareness and Prevention Month

FOR AGENDA OF:

April 9, 2026

DEPT OF ORIGIN:

Administration

DATE SUBMITTED:

March 25, 2026

CLEARANCES:

Purpose and Recommendation

The purpose of this agenda item is to show Council support and proclaim the month of April as Sexual Assault Awareness Month.

Suggested Motion:

Motion: "I move to approve the Proclamation recognizing April as Sexual Assault Awareness Month."

Background

Sexual Violence is a widespread problem that affects people of all genders, ages, races, religions, incomes, professions, ethnicities and sexual orientations.

Founded by the Pennsylvania Coalition against Rape in 2000, the National Sexual Violence Resource Center (NSVRC) develops and disseminates resources regarding all aspects of sexual violence prevention and intervention.

2026 marks the twenty-fifth anniversary of Sexual Assault Awareness Month. This year's campaign theme is "Together We Act, United We Change", and aims to shift how communities understand, talk about, and respond to sexual abuse, assault, and harassment.

PROCLAMATION

WHEREAS: Sexual assault is pervasive: Every 68 seconds, someone is sexually assaulted in the United States; and

WHEREAS: Sexual violence impacts everyone. Anyone can be a victim of sexual violence, and people who commit sexual abuse, assault, and harassment exist in all of our communities. This underscores why it's important for all of us to care about sexual violence and take steps to promote the safety and well-being of others; and

WHEREAS: Black, Indigenous and other people of color, people living in poverty, LGBTQ+ people, elders, people with disabilities and others who have been historically oppressed are disproportionately affected by sexual violence in significant and complex ways; and

WHEREAS: Sexual assault is among the most underreported crimes for many reasons, but survivors who are already most marginalized face additional barriers to reporting, such as language, immigration status or disability; and

WHEREAS: Ending sexual violence requires us to address racism, sexism, and all forms of oppression that contribute to the perpetration of sexual assault; and

WHEREAS: Sexual violence exists on a continuum of behavior that includes racist, sexist, transphobic, homophobic, ableist or other hate speech. This ranges from rape jokes to verbal harassment to physical assaults; and

WHEREAS: Survivors of sexual assault may never forget their victimization, but they can heal with support from family, friends and their communities. Sexual assault programs across King County and Washington state offer free and confidential support, advocacy, information and resources to survivors; and

WHEREAS: By working together as a community, we can alleviate the trauma of sexual violence by ensuring supportive resources are available to all survivors, while standing up to and actively disrupting harmful attitudes and behaviors that contribute to sexual violence.

NOW, THEREFORE, The City of Des Moines Council join advocates and communities throughout King County in taking action to prevent sexual violence by standing with survivors and proclaiming April 2026 SEXUAL ASSAULT AWARENESS & PREVENTION MONTH.

Together, we commit to a safer future for all children, young people, adults, and families in our community.

Signed this 9th day of April, 2026

SUBJECT: Draft Ordinance 26-009: Appointive Code and Citizens Advisory Board Code Update (2nd Reading)

ATTACHMENTS:

1. Draft Ordinance No. 26-009

FOR AGENDA OF:

April 9, 2026

DEPT OF ORIGIN:

Legal

DATE SUBMITTED:

3/30/2026

CLEARANCES:

City Clerk

Purpose and Recommendation

The purpose of this agenda item is to review Draft Ordinance 26-009, which updates the general provisions related all appointive committees as well as specific provisions applicable to the Citizens Advisory Board (CAB).

Suggested Motion:

Motion: "I move to pass Draft Ordinance 26-009 updating the Appointive Committee and Citizens Advisory Board codes."

Background

With the restructuring of the Citizens Advisory Board and the creation of the Planning Commission—both of which are appointive committees—a code review was conducted to ensure consistency among appointive committees and to confirm that appropriate protocols are in place.

At the March 5, 2026 Study Session, staff presented the Council with proposed changes to both the Appointive Committee code (chapter 4.24 DMMC) and the Citizens Advisory Board code (chapter 4.60 DMMC). Staff also sought Council direction regarding how the subcommittees within the CAB operate.

After discussion, Council generally agreed with the proposed changes, with a few modifications and additions. Councilmembers requested the following:

1. The minimum age for membership on appointive committees should be 18;
2. To include the word “geographic” in Section 4.24.040(4);
3. A provision requiring appointive committee meetings be run pursuant to Robert’s Rules of Order;
4. A provision notifying Council if a member misses more than three meetings in a year for potential removal;
5. To include language to provide more structure to the way the CAB operates with written reports from the subcommittees; and
6. That the CAB subcommittees operate as currently written in chapter 4.60 DMMC, with the subcommittees making written reports of their recommendations to the CAB, which would then vote on whether to adopt those recommendations or draft separate ones.

These provisions were incorporated in Draft Ordinance 26-009 which was presented to Council for first reading at the March 26, 2026 meeting. Council voted to include language that would exempt the CAB subcommittees from Open Public Meetings Act requirements, and to change the name of CAB “subcommittees” to “Committees of the Board” as this was requested by the members of the CAB.

Draft Ordinance 26-009 now contains these additional changes and is being presented for second reading.

Discussion

The only changes to Draft Ordinance 26-009 from the first reading are:

1. Any reference of “subcommittees” in the CAB code to “committees of the Board” (or a grammatically appropriate version as needed); and
2. Language has been added to section 16 stating: “Notwithstanding the provisions of DMMC 4.24.070(3), meetings of committees of the Board shall not be subject to the requirements of the Open Public Meetings Act.”

Alternatives

Council may:

1. Pass the draft ordinance as presented. (Recommended).
2. Pass the draft ordinance with changes.
3. Decline to pass the draft ordinance.

Financial Impact

There is no anticipated financial impact from the proposed code changes.

Recommendation

Staff recommends Council pass Draft Ordinance 26-009.
