Meeting was called to order at 4:01 p.m.

1. Approval of 06.23.2022 Minutes
Minutes approved as submitted.

2. Fast Ferry Service Pilot Project Update

CM Michael Matthias stated the pilot project has far exceeded expectations. The ferry service acts as a catalyst for economic development and draws attention to the City. Staff are working on a City map to highlight locations of interest that will be available to passengers on the ferry. The Port of Seattle shared information regarding respectful sailing in Puget Sound. A ferry option for traveling to Seattle has created enthusiasm amongst various organizations and development groups. The question to be considered at this point, if the pilot proves to be a success, what is the City's strategy for moving forward? The program has been paid for using one time sales tax from development. The current pilot timeline is likely to extend through October-November. A timeline for next year might be considered Phase 2, perhaps to coincide with the opening of the 2023 Farmers Market. The parking issue needs to be studied. The Marina Steps project will align well with the passenger ferry opportunity. We are not quite ready to analyze all the data yet as there are a couple of months yet to be reviewed. There is a Community meeting planned for September 27th, this will allow staff to receive feedback for consideration.

Adjourned at 4:15 p.m.

Respectfully submitted by,
Jodi Grager, Public Works Administrative Assistant
