

Haunted House Opens Oct. 13

Are you ready to be scared out of your wits? The thrills and chills at the annual Des Moines Haunted House begin on Wednesday, October 13 and continue Tuesdays - Sundays (closed Mondays) through Sunday, Oct. 31.

The Haunted House is at Des Moines Beach Park, just north of the Des Moines Marina. Admission is \$6 per person. Discount coupons are available at Bartell Drug Stores.

The Des Moines Haunted House may be too frightening for younger children during regular hours. Special effects are toned down during "Family Hour", from 7 to 8 p.m.

The Haunted House is sponsored by the Des Moines Rotary Club which uses proceeds to fund community service projects. It is produced by Scare Productions. Parking is available at the adjacent Des Moines Marina.

PACIFIC HIGHWAY SOUTH

Planning Continues for Pacific Ridge Redevelopment

The Des Moines City Council hopes to promote revitalization and redevelopment along both sides of Pacific Highway South, between South 216th Street and Kent-Des Moines Road. This area, which also includes the properties between Pacific Highway South and Interstate 5, is now known as Pacific Ridge. City planners are preparing new zoning regulations and a detailed neighborhood improvement plan that together will encourage and guide new construction. Public meetings on these important documents will be announced in the near future.

Volunteers Needed

A citizens group is also being formed to foster communication between City government and the Pacific Ridge community. The citizens group will include property owners, residents, business owners, and other stakeholders from the Pacific Ridge area, and will help keep lines of communication open as the City prepares new land use regulations. If you would like to be a member of the citizens group, or to learn more about the Pacific Ridge Planning Project, call Corbitt Loch at (206) 870-6568 or e-mail to: cloth@cityofdesmoines.com.

Refreshments will be served

City Computer Systems Ready for Y2K

In 1998, the City of Des Moines began conducting assessments of its computer operations and the potential impacts of the upcoming change from year 1999 to 2000. It was discovered early that there were a number of computers and software being used that were not Y2K compliant and might not operate efficiently after Dec. 31, 1999.

Funding was allocated in the 1999 budget to replace or upgrade non-compliant computers and software. That process was recently completed and the City expects all of its operations and facilities to operate normally after Dec. 31, 1999. This includes the Police Department, Marina, Parks and Recreation, Public Works, City Hall, and traffic signals on City streets. The Police Department will have a contingency plan for emergency communications in the event that dispatch services through Valley Com are disrupted. Valley Com expects to be Y2K compliant and does not anticipate problems.

Non-city utilities such as water and sewer are working to become Y2K compliant and do not expect to be affected by the year change. The power company is taking measures to ensure that any disruptions in the power system can be quickly corrected.

Court Now Conducting Video Hearings

The Des Moines Municipal Court is now processing arraignments and some other court matters via video connections with defendants who are held in jail in Seattle or at the Kent Regional Justice Center.

If a person is in custody at either of these facilities, instead of being transported to the Des Moines courtroom, the judge, public defenders and prosecution staff can all conduct a hearing while an inmate remains in the jail facility.

This project has enabled the court to eliminate security risks posed when some violent or dangerous inmates had to be transported to Des Moines Municipal Court. This service will enhance the safety for people with business at City Hall. Des Moines is the first city in King County to provide these services through another city's municipal court. "Thanks" to Tukwila Municipal Court and King County for providing the pilot program for video court hearings.

Help Keep Your City Free of Litter

City of Des Moines employees take great pride in helping Des Moines look its best. City crews spend approximately 10 - 15 hours a week picking up garbage, yard debris, and other items that are being dumped illegally on the streets, sidewalks and in the ditches throughout Des Moines. This takes work crews away from maintaining the safety of the streets of Des Moines and other tasks of higher priority.

The City would appreciate residents' assistance by disposing of litter

in appropriate places, such as litter bags in vehicles or in one of the garbage cans located in various spots throughout Des Moines, especially those located near bus stops. To assist the City in stopping the illegal dumping, dispose of yard debris properly and report those who don't to the police department. This would allow City crews to respond much more quickly to citizen concerns and requests for right-of-way mowing, vegetation control, and damage to streets and signs.

I-695 Impacts Under Study

Initiative 695 will appear on the ballot November 2. If passed, this measure would replace the existing 2.2% annual motor vehicle excise tax (MVET) with a flat \$30.00 license fee. It would also subject all future tax and fee increases to voter approval. The MVET was established in 1937 as a replacement to the property tax on cars, with proceeds distributed to state and local agencies to replace lost property tax revenues. If passed, the new law would take effect on January 1, 2000. The chart to the right shows the total fiscal impacts to state and local agencies for calendar year 2001.

The City of Des Moines would lose the following revenue:

SOURCE	2000	2001
Sales Tax Equalization	\$1,455,628	\$1,969,025
Police MVET	\$285,180	\$397,412
Camper Excise	\$6,247	\$8,758
Criminal Justice MVET	\$5,432	\$7,436
Local License Fee*	\$230,000	\$230,000
<u>Referendum 49 Revenue</u>	<u>\$154,540</u>	<u>\$166,957</u>
TOTAL	\$2,137,027	\$2,779,588

*Uncertain but probable loss, depending on court interpretation.

City staff members are preparing two budgets for 2000; one regular projection and a second based on the impacts of I-695. The lost revenue would require budget reductions of approximately 18% based on 2000 figures or 23% calculated on the full impact in 2001, unless other revenue sources were found. For more information, call the City of Des Moines Finance Director at (206) 870-6512.

I-695 Fiscal Impacts

Calendar Year 2001 (\$ in millions)

STATE	
Dept. of Transportation	(\$277.0)

* Includes losses to the Air Pollution Control Account, Community Economic Revitalization Board, schools and the Washington State Crime Lab.

Leave a Legacy for Des Moines' Future Generations

The Des Moines Legacy Foundation was re-established in 1999 (formerly Greater Des Moines Seniors since 1986) to play a leadership role generating resources for the development of essential community facilities and programs by accepting gifts for use in the park, recreation and senior services system. During the next three years, the Foundation will focus its efforts on three Millennium Projects:

- Des Moines Senior-Community Center
- Des Moines Sports Park Athletic Fields
- Permanent Endowment Fund

The Des Moines community has a rich history of park and recreation stewardship. Past citizen, business and service club gifts date back to the early 1900s when citizens donated land for baseball fields (now Des Moines Field House Park.) Donations of land, mini-parks, play equipment, Senior Center equipment, computers, park maintenance support, plantings, athletic equipment, picnic tables and benches, volunteer labor and cash have been integral to improving the park, recreation and senior services and our quality of life. Citizens can ensure that Des Moines remains

a beautiful, healthy, safe and caring place to raise children and enjoy retirement. Donations can be for specific programs or facilities, or donors can let the Foundation decide where contributions can best be used.

Residents can give back to their community in many ways. They can help individually, or get involved through a business, neighborhood association, school and scouting group or service club. For more information about the Des Moines Legacy Foundation and how to get involved, contact Keith Noess c/o Des Moines Senior Center, call 206-878-1642.

Fall Recycling Event Oct. 16

The City of Des Moines is sponsoring a fall special collection and recycling event to further reduce the amount of hazardous materials within our City. The one-day event will be held Saturday, Oct. 16 in the parking lot at the south end of the Des Moines Marina, 9 a.m. to 3 p.m.

The event is funded primarily by the King County Department of Public Health, King County Hazardous Waste Management Program and King County Solid Waste Division. These programs are funded by garbage disposal fees paid by all King County residents. The City is using these funds to provide additional recycling and hazardous waste disposal opportunities to its residents. With these funds the City is attempting to divert such hazardous materials such as used motor oil from being dumped down storm drains, old tires from being thrown into roadside ditches, used anti-freeze from being drained in alleyways, and lead acid batteries from being thrown into landfills. The event also collects hard-to-recycle materials such as bulky yard waste, clean scrap wood, ferrous and non-ferrous metals, reusable or recyclable household goods, and for a small fee, appliances.

For more details regarding what can and cannot be brought to this special fall event, look for a flyer in your mail soon or call City of Des Moines Community Development at (206) 870-7576.

YOU CAN BRING THE FOLLOWING ITEMS:

- **UNCONTAMINATED PETROLEUM BASED PRODUCTS:** Oil filters, motor oil, brake fluid, transmission fluid, steering fluid, crankcase oil, kerosene, diesel oil and home heating fuel. Do not mix solvents or other substances with petroleum products.
- **CAR, LIGHT TRUCK AND MOTORCYCLES TIRES:** Tires must be taken off rims. Bias ply, steel belted, and studded tires accepted. Limit 6 passenger tires per household (18 inches and below) free of charge. \$1.50 for each passenger tire on a rim, \$5 for each large truck tire and \$15 for each large truck tire on a rim. (CASH ONLY).
- **UNCONTAMINATED ANTIFREEZE:** Do not mix with oil, gasoline, solvents, or other substances.
- **LEAD ACID BATTERIES:** Car, truck, marine, and motorcycle batteries accepted. No household batteries, please.
- **SCRAP METAL:** Both ferrous and nonferrous metals accepted.
- **APPLIANCES:** To properly dispose of hazardous chemicals, there will be a \$20 charge for each refrigerator, freezer or household air conditioner. (CASH ONLY).
- **BULKY WOOD WASTE:** Large branches (2 inches diameter or greater), logs, clean wood, plywood, and other untreated and unpainted wood. We will not accept leaves, grass, sod or brush.
- **TEXTILES & REUSABLE OR RECYCLABLE HOUSEHOLD GOODS:** Usable clothing, furniture, and other household items will be given to a non-profit organization for resale. Items in need of repair won't be accepted.
- **CONCRETE/ROCKS/BRICKS/ASPHALT:** Residentially generated only.
- **CARDBOARD:** No wax-coated cardboard. Please flatten.

UNACCEPTABLE MATERIALS

- No Paint
- No Cleaning Products
- No Household Chemicals
- No Pesticides
- No Solvents and Thinners
- No Window Glass
- No Painted Wood
- No Garbage
- No Plastic Pools, Hoses, Toys,
- No TV Sets
- No Propane Tanks

Many household hazardous wastes can be disposed of through the King County Hazardous Wastemobile. The Wastemobile will be in Federal Way October 15 - 24. For other locations and more information, please call the Health Department Hazards Line at 296-4692.

Fright Night

October 15
Grades 7-12

7 - 10 p.m.
\$6 per person

Des Moines Beach Park Dining Hall, 22030 Cliff Ave.

Spend a fun-filled, frightening evening with other 7-12 grade teens at the Des Moines Beach Park! Fright Night includes music, dancing, craft projects, games, food, and a trip through the Scare Productions Haunted House. Fright Night provides a forum for Des Moines teenage youth to gather in a safe, supervised, and substance-free environment. Participants are encouraged to pre-register for these events by calling the Field House at 206-870-6527, but you may register at the door. Teens will be checked with a metal detector prior to entering Fright Night. Participants are expected to follow the few, but essential rules for the safety of all – A “ZERO TOLERANCE” policy is in effect!

Haunted Halloween Event

Sunday, October 31 5 - 8 p.m.
Ages 12 and under \$1 donation
Des Moines Field House, 1000 S. 220th St.

Come and enjoy this year's 5th Annual Haunted Halloween Event! Play free carnival games, get your face painted, enter the costume contest, listen to music, win door prizes, be amazed during The Amazing Castro's magic show, and enjoy refreshments. Then go trick or treating with a Police Officer escort. Children ages 12 and under are invited to dress up in their Halloween costumes and enjoy an evening of non-stop fun. Children MUST be accompanied by a parent or guardian. \$1 donation or one non-perishable food item per child is greatly appreciated. All food donations will be given the Des Moines Area Food Bank.

The Haunted Halloween Event is sponsored by the City of Des Moines Police and Park & Recreation Departments, and the King County Fire District #26 (Des Moines Fire Department).

HALLOWEEN SAFETY TIPS

- Welcome trick or treaters to your home by turning on your exterior lights.
- Remove objects in your yard that might present a hazard to visitors.
- Drive slowly all evening – you never know who might suddenly cross the road.

PARK & RECREATION DEPARTMENT

DES MOINES SENIOR CENTER

OCTOBER 1999

You can also email us your comments, questions and concerns. **During the month of October the lab will be open on Tuesdays from 9:00am - 1:00pm.**

Registration is required for classes, trips, special programs, special events and services. Call today!! 206-878-1642

SURFACE WATER NEWS

In a series of articles we are featuring the characteristics of one or two of our City's streams. Des Moines has a total of eight stream systems that are either partially or fully located within the current City boundaries. The stream systems, listed from north to south are: Normandy Creek; Des Moines Creek (featured in the last article); Massey Creek which follows Kent-Des Moines Road from Pacific Highway South and empties to the Sound just south of Anthony's Home Port; Barnes Creek which drains into Massey Creek near Kent-Des Moines Road just west of 12th Avenue; McSorley Creek which has two major branches and drains to Saltwater State Park; Woodmont Creek which follows Woodmont Drive and outfalls to the Sound near 268th Street; Redondo Creek which follows Redondo Drive and outfalls to the Sound near Salty's; and Cold Creek which empties to the Sound at the south end of the Redondo Beach Boardwalk. Each of these systems is unique in it's own right.

Barnes Creek and Massey Creek

The Barnes Creek/Massey Creek Basin is approximately 1,300 acres in size (2.0 square miles). Virtually all the basin is located within the Des Moines City limits. Only 1% of the basin (or 15 acres), located at the headwaters Massey Creek and west of Pacific Highway South, is located within the Kent City limits. Massey Creek itself is approximately 1.9 miles long and flows parallel to Kent-Des Moines Road and crosses Marine View Drive just south of the Kent-Des Moines intersection, flows under the Whalers Village Condominium complex and finally outfalls to Puget Sound at the south end of the Marina breakwater.

Massey Creek has been heavily influenced by the Pacific Highway corridor and adjacent development. Several sec-

culvert carries Massey Creek crosses underneath 20th Ave. S.

Massey Creek flows next to an complex apartment parking lot

tions of the stream have been piped and at some locations, parking lots have been placed over the stream. Road culverts at several locations block fish passage (such as at 10th Avenue, 16th Avenue and 20th Avenue). Key cutthroat trout and coho salmon spawning and rearing habitat can be found between 10th Avenue and 20th Avenue.

Barnes Creek is 1.7 miles long and flows unrestricted between 223rd and its outfall to Massey Creek. The culvert crossing at Kent-Des Moines Road, however, is a fish passage barrier thereby preventing access to this key trout spawning and rearing area. The creek turns eastward north of 223rd Street and extends to its headwaters near Pacific Highway South. This section of the creek contains several road culvert crossings and experiences bank erosion.

This drainage basin has been extensively studied for flooding and several major projects have been implemented to improve the condition of these two streams. In recent years, the City Park stormwater detention facility (near 22nd Place) has been built to contain peak storm flows and another regional facility is currently being built by Highline Community College on the college campus. A third facility is under design and planned for the area of Barnes Creek near 223rd Street. A major fish passage barrier was removed at Marine View Drive in 1994 and the culvert at 10th Avenue is planned for removal in 2002 (or sooner if funding becomes available). The fish barrier at the mouth of Barnes Creek is planned for removal in 2004. The City also purchased the section of Massey Creek between Marine View Drive and 10th Avenue in anticipation of widening the stream and improving fish habitat. The habitat improvements can be made once the stormwater detention facilities are built. Major stormwater facilities are also being included with the Pacific Highway South Improvement Project to control peak flows and treat the road runoff.

CITY COUNCIL HIGHLIGHTS

Approved the following ordinances:

- No. 1239 regulating itinerant and mobile businesses.
- No. 1240 establishing a process and conditions under which certain nonconforming multifamily residential buildings in residential zones can be reconstructed if destroyed or significantly damaged by a catastrophe or disaster.

Approved the following resolutions:

- No. 870 granting permission to the Greater Des Moines Chamber of Commerce to use Marina property for an on-water boat

show and sale of prepared food and non-alcoholic beverages.

- No. 871 adopting the City of Des Moines 2000-2005 Six Year Transportation Plan.
- No. 872 approving the Southwest Suburban Sewer District's 1999 Sewer Comprehensive Plan.

Approved the following agreements/bids/contracts:

- Contract for the Playfield Renovation Project 99-95 Midway and Olympic Elementary Schools to BBWT Construction in the amount up to \$96,130.00, plus sales tax and 10% contingency.

- 2000-2002 Community Development Block Grant and HOME Interlocal Agreements.

- Design and construction management services for the South Marina Restroom Project to Makers Architecture and Urban Design in the amount of \$30,419, plus 10% contingency services.

- Authorized the City Manager to sign the Public Works Trust Fund Loan for the Marine View Drive Bridge Project.

UPCOMING EVENTS
